### **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

- 1. The factual inquiries set forth in *Graham* v. *John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:
  - 1. Determining the scope and contents of the prior art.
  - 2. Ascertaining the differences between the prior art and the claims at issue.
  - 3. Resolving the level of ordinary skill in the pertinent art.
  - 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
- 2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).
- 3. Claims 2-5 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over PL 102236 (abstract) or DE 3007850 (claim 1 in page 1).
- 4. The cited reference(s) disclose(s) the features including the claimed Zn-Al alloy composition and processing steps such as casting and rolling. The difference between the reference(s) and the claims are as follows: cited references do not disclose all the recited optional elements. But, optional elements are merely optional and are not

Serial No: 09/831,377

Art Unit: 1742

required to be disclosed by cited reference. Therefore, the subject matter as a whole

would have been obvious to one having ordinary skill in the art at the time the

invention was made to have selected the overlapping portion of the subject matter

disclosed by the reference. Overlapping ranges have been held to be a prima facie case

of obviousness, See MPEP § 2112.01, In re Malagari, 182 USPQ 549, In re Titanium Metals

Corporation of America v. Banner, 227 USPQ 773 (Fed. Cir. 1985), and In re Wertheim, 541

F.2d 257, 191 USPQ 90 (CCPA 1976).

Response to Arguments

5. Applicant's arguments filed December 26, 2002 have been fully considered but they are

not persuasive.

Applicants' argument as set forth in the paragraph bridging pages 3 and 4 of the instant 6.

remarks is noted. But, as is stated in In re Wertheim, 541 F.2d 257, 191 USPQ 90

(CCPA 1976), "the disclosure in the prior art of any value within a claimed range is

an anticipation of that range." Accordingly, a rejection under 35 USC § 102 may be

applicable where the prior art discloses a value within a claimed range or where the

claims and the prior art contain numerical ranges of components that touch, overlap,

or are included within one another.

7. Applicants' argument as set forth in page 4, second full paragraph of the instant remarks

is noted. But, applicants' attention is directed to PL 102236 (abstract) and DE3007850

(claim 1) that said references disclose the claimed Zn-Al alloy elements.

Serial No: 09/831,377

Art Unit: 1742

#### Conclusion

8. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Applicant is reminded that when amendment and/or revision is required, applicant should therefore specifically point out the support for any amendments made to the disclosure. See MPEP § 2163.06 (a) and 37 C.F.R. § 1.119.

## Examiner Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to S. Ip whose telephone number is (703) 308-2542. The examiner can normally be reached on Monday to Friday from 5:30 A.M. to 2:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Roy V. King, can be reached on (703)-308-1146.

The facsimile phone number for this Art Unit 1742 are (703) 305-3601 (Official Paper only) and (703) 305-7719 (Unofficial Paper only). When filing a FAX in Technology Center 1700, please indicate in the Header (upper right) "Official" for papers that are to be entered into the file, and "Unofficial" for draft documents and other communication with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0651.
